Check:

<u>10618736</u>	<u>6933881</u>	150	07/15/2003	AUTOMOTIVE RADAR	SHINODA, HIROSHI
<u>11045147</u>	Not Issued	93	01/31/2005	AUTOMOTIVE RADAR	SHINODA, HIROSHI
<u>11178408</u>	Not Issued	161	07/12/2005	On-vehicle radar	SHINODA, HIROSHI
<u>11544759</u>	Not Issued	41	10/10/2006	Millimeter-wave radar apparatus and millimeter radar system using the same	SHINODA, HIROSHI
<u>11934705</u>	Not Issued	30	11/02/2007	MILLIMETER WAVEBAND TRANSCEIVER, RADAR AND VEHICLE USING THE SAME	SHINODA, HIROSHI

11/178407 is similar but I don't think it's double patenting

CONSULTATIONS

10/29/2008

- primary John Sotomayor

Hi JB,

This is an amended case. The first claim is:

- I. (Currently Amended) An automotive radar comprising:
an antenna equipped with at least one radiating element which radiates linear polarized radio waves;
a slit plate which is a metal plate in which a plurality of slits are defined, the slit plate being placed in front of the surface of the antenna;
radio wave absorbers provided between the antenna and the slit plate; and
a transceiver device which supplies transmit signals to the antenna to radiate radio waves and, from signals acquired by receiving reflection waves which are returned waves of the radio waves striking an obstruction, detects a direction in which the obstruction exists:
wherein at least one of the radio wave absorbers is backed with a second metal plate for impedance matching in space so as to reduce sidelobes generated by radio wave leakage from a clearance between the antenna and the slit plate and prevent a multipath of incident waves to a surface of a road and reflection waves from the surface of the road.

I'm searching in 342/70-72, 1-4, 159, 175, 188, 198, and in 343/872-873. Would you recommend any other subclasses?

Thanks for your help,

Cassi

I think you've covered all the search areas.
